FACIAL TREATMENTS

We do not use any type of apparatus in our facial treatments. We seek the very best results in every case, which is why we always begin by analysing the client's skin and assessing their specific needs to offer them the most personalised treatment possible. The ultimate aim of most of our treatments, but not the most important, is to care for the skin from the inside to achieve incredible results on the outside.

In all our facial treatments, we follow the same procedure:

- Cleanse the skin using cleansing milk, toner and scrub
- Apply a specific serum depending on the treatment using a pressing technique
- Apply a specific cream depending on the treatment to give a facial massage
- Apply a mask that is left to work for 10 or 20 minutes, depending on the treatment
- Finishing touch of moisturiser with sun protection

* You can book the time. The day of your appointment our experts will do a prior consultation with you to help you choose the correct treatment.
